

## (PERMITTED MEDICATION LIST 2023)

(अनुमति दवाइयों की सूची 2023)

### DISCLAIMER

(Please read these terms and conditions carefully before the use of permitted medicines)

The information on "List of Permitted Substances" is intended for medical professionals only. Any information provided is not intended to serve as a substitute for clinical judgment and should not be relied upon solely for final treatment decisions. You are advised that approved drug information differs from country to country and the information may not be applicable outside of the country or region. If you are not a medical professional, you should note that this "List of Permitted Substances" does not provide professional medical advice and is not intended to replace personal consultation with a qualified physician. Any reference to any medicinal product which has been or may be provided by the publisher, the authors, editors and their servants or agents does not amount to a promise that such medicinal product will be available at any time. This "List of Permitted Substances" contains a list of medicinal products that are registered in India only. If you use this list to search for a medicinal product and no search results are available, it could mean it is not a registered medicinal product in India and may still contain Prohibited Substances. This list does not contain information on, or that applies to, dietary supplements. If you use this list to search for the individual ingredients, the supplement may contain prohibited substances even if your search results reveal that the ingredients on the label are not prohibited. Some supplements have been known to contain unlisted ingredients which may contain banned substances. The use of any supplement, traditional medicine, herbal, or any other nutritional product is at your own risk. PGTI players are advised that in all instances, you must check with a Sports Medicine Specialist for final advise and prescription of medicines. Please be aware that some medicines with similar names may contain additional substances which may be prohibited in sports.

It is advised to cross check with the PGTI Prohibited List published on the official website of PGTI at <http://www.pgtofindia.com>.

Although great effort has been made in compiling and checking the information contained in this "List of Permitted Substances" to ensure that it is accurate, the publisher, the authors, editors and their servants or agents shall not be responsible or in any way liable for the continued currency of the information or for any errors, omissions or inaccuracies whether arising from negligence or otherwise howsoever, or for any consequences arising therefrom.

Athletes, like all people, may have illnesses or conditions that require them to take particular medications or undergo procedures.

If the medication or method an athlete requires to treat an illness or condition happens to fall under the Prohibited List, a Therapeutic Use Exemption (TUE) may give that athlete the authorization to take the needed medicine or method. TUEs are granted according the International Standard for TUEs (ISTUE). Players requiring TUE may contact the PGTI and ask for information about the TUE Application process.
